

PERIODIC STATEMENT – 30 JUNE 2019

This statement represents a periodic statement for the year ended 30 June 2019 for your holding in the Aventus Group (“AVN”).

These disclosures are made in accordance with section 1017D of the Corporations Act 2001 (“the Act”). These disclosures should not be relied upon by a securityholder for the purpose of preparing their income tax return. We send securityholders a separate tax statement in August each year which contains information required to complete an Australian tax return.

Holdings and Transaction Details

Securityholders can access information about their holding at www.linkmarketservices.com.au or by contacting Link Market Services Limited on +61 1300 554 474. Securityholders will have been provided information about the prices at which they have transacted in AVN from the broker that they used for such transactions.

Estimated Total Fees and Indirect Costs

Total Fees represent the estimated total fees and costs incurred by each securityholder for their investment in AVN.

Total Fees comprise the fees which have been charged directly to securityholders and Indirect Costs which have not been deducted directly from a securityholder’s account. As no direct fees are charged to securityholders estimated Total Fees are equivalent to Indirect Costs.

Indirect Costs include investment management fees, performance fees, registry, custody, accounting, tax, legal and other administrative costs. Indirect Costs exclude costs that the investor would incur if the investor invested directly in the assets.

The estimated Indirect Costs for AVN for the year ended 30 June 2019 are as follows:

	2019
Weighted average number of securities (m)	523.6
Indirect Costs (\$m)	13.3
Indirect Costs per security (\$)	0.03

Securityholders can calculate their estimated Indirect Costs by multiplying the Indirect Costs per security (from the table above) by their average holding balance during the year ended 30 June 2019.

Return on Investment

Securityholder return on investment includes the return from both AVN’s security price performance and distributions received.

The following table shows the performance of AVN securities based on the ASX closing price at the end of each month:

Securityholders can calculate their investment return by obtaining such information about their transactions from their broker or financial adviser.
